WAR PREPARATIONS. ALL AVAILABLE VESSELS TO BE SENT TO THE FRONT.

NEW YORK, November 26 .- A dispatch to New York, November 26.—A dispatch to the Herald says that on Tu sday evening Robeson received information which quickneed to all possible activity his department in preparing for Cuba.

3. Orders were issued by the Secretary to the chiefs of bureaus to put the navy in the best possible condition without awaiting the approval of the Secretary.

The next orders issued to Rear Admiral Cose, commanding the European squadron.

Cose, commanding the European squadron, to leave but one ship at Cadiz and proceed.
Other vessels are under full steam to Key
West. Dispatches were then prepared for
Rear Admiral, commanding the South Pacific and South Atlantic stations, which are now on their way to order all vessels of their fleets to Key West under steam, and to report to the Navy Department at that point. A telegraphic dispatch was sent to the commander of the East India squadron, informing him of the gravity of the situation, and to issue orders at once to every paniciprices. yessel of the fleet to prepare for any emer-gency. Per contra, the Times in a double leaded editorial says, we have reason to be-

case yesterday. JAY COOKE & CO. IN BANKRUPTCY. PHILADELPHIA, November 26.-In the Grass Seeds and Seed Oats, PRILADELPHIA, November 36.—In the United States Pistrict Court this morning Judge Cadwallader, on the petitions of sundry parties asking for an adjudication in bankruptcy, in the case of Jay Cocke & Cd., was granted, and J. Gillingham Felt was appointed receiver. The Judge intimated that future proceedings under adjudicant should be had under the 43d section of the bankrupt act, which authorizes the appoint. bankrupt act, which authorizes the appointment of a trustee and a committee by the

The prospects for the larmers are growing brighter every day. Goods are now very low Bacon is very low, and cotton is rising slowly but surely. The price here is 13 1-2 cents to-day, a rise of half a cent in three days, and the appearance of things looks like it would rise still more. The cotton mills all over the country are beginning to run longer time, and some of them which had stopped entirely have started again. The mills Cohoes, New York, which have been stopped for a month, are now running five thousan hands. The prospects at Liverpool are be ter, as we see by the dispatches to-day, and it that market should rise the price in this country would be certain to go up. The trouble about cotton is we make too much. If all our farmers would produce corn and meat enough to supply their own farms and then cotton to pay their debts with, the price would not be below fifteen cents in years, and might be still higher.

Washington, November 24.-Richardson

Under date of October 28th Richardson issued the following order:

Secretary Richardson's order to Treasurer Spinner directing the payment of silver is as follows: "You will please, on and after the receipt of this letter, and until otherwise or-dered, pay the public creditors, should they desire it, on account of currency obligations, but not in exchange for currency, a sum not to exceed five dollars in any one payment in silver coin.'

One month of specie payments "in a sum not toexceed five dollars in any one payment in silver coin," has so far exhausted Richardson and the United States Treasury Department, "that hereafter in making disbursemeets silver coin will be paid only in the fractional parts of a dollar.

What a fall is there, "my countrymen,

"An old Confederate" (evidently General Jubal A. The preliminary report of the aggregate quantity in that year indicated a total of \$74,000,000 bushels less than the estimate for the large crop of 1870, and the present returns point to a product of about \$88,000,000 bushels. The estimate of last year's crop of Illinois was 217,900,000 bushels. The estimate of the present crop is 182,000,000 bushels. The estimate of the present crop is 182,000,000 bushels. Only six States show a crop equal to last year, viz: Virginia, Georgia, Florida, West Virginia, Oregon and Rhode Ialand. The percentage of the deficiency in the principal corn growing section, in comparison with the total product of last year, is as ollows: Kentucky 4 per cent. Ohio 11; Indiana 22; Illinois 39; Iowa 28; Missouri 22; Kansas 31. The deficiency for New York is 8 per cent., and 16 for Pennsylvania. In most of the Southern States the crop is smaller than that of last year. PERNICIOUS PURGATIVES,-The brilliant idea of half a century ago that the weak and ailing could be bled, blistered and salivated into a condition of health and vigor is happily exploded; but violent and prolonged purgation is still, to some extent, in vogue. We have imposters who are daring enough to offer to the world as tonic and restorative. We have imposters who are daring enough to offer to the world as tonics and restoratives, the most destructive cathartics, unmodified by a single stimulating, soothing, or restorative element. Compare the operation of one of these terrible nostrums with that of Hostetter's Stomach Bitters, in which are combined the three great curative elements—a tonic, an alterative, and an aperient. The former completely paralyzes the vital forces, so that nature can make no resistance to disease: the latter sustains the sistance to disease; the latter sustains the strength of the patient, while it restores the suspended functions of the secretory organs and relieves the bowels without violence or pain. It is simply a choice between restora-

Work to A Shadow.—Flesh, muscle and mind alike deteriorate when the stomach falters in its duty and the bowels do not perform their part as scavengers of the system regularly and naturally. In chronic dyspepsia the body is usually emaciated, and the muscular fibre loose and flabby, and the brain incapable of prolonged or vigorous exertion. Every organ, every member, even the immortal mind itself, is to a certain extent dependent upon the stomach for support. Strengthen and regulate this feeder of the system with Hostetter's Stomach Bitters, when it fails to perform its functions preperly. A good appetite, an increased flow of the gastric juice, and perfect digestion and assimilation will assuredly be the result. The manner in which the great tonic and alterative effects a cure of dyspepsia is direct and simple. It stimulates the digestive organs, cleanses without convulsing the bowels, regulates the flow of bile and determines it into the right channels, and exercises a tranquilizing influence over the nerves.

How Permanent Customers are Made.

How Permanent Customers are Made. If you have never used Sapolio, the next time you send to your grocer tell him you want a cake; it will cost you only a few cents. Then look all over your house, and wherever you find a spot upon the paint, the farniture, carpets, or anything else, whether it be dirt, grease, tar, or whatever else, use Sapolio according to the simple directions. Then collect all the tinware, copper ware, knives, forks, kettles, etc., and polish them up. When you have done this once then Enoch Morgan's Son's know positively that their Sapolio has won another permanent customer.

THE ONLY KNOWN MEDICINE THAT AT THE SAME TIME PURCES. PURIFIES AND STRENGTH ENS THE SYSTEM.

Br. That's Pills are composed of many ingredients. Prominent among them are Sarsaparilla and Wild Cherry, so united as to act together; the one, through its admixture with other substances, purifying and parging; while the other is strengthening the system. Thus these Pills are at the same time a tonic and a cathartic, a desideratum long sought for by medical men, but never before discovered. In other words, they do the work of two we know of, for they remove nothing from the system but impurities, so that while they purge they also strengthen and hence they cause no debility and are followed by no reaction.
